

Concord Neighborhood Center

- Located in Indianapolis, IN
- Project Type: Master Plan

Project Description: Review the two previous masterplans done over the past ten years. Met with the Board and Center Management to update/modify the masterplan to align to the economic and demographic of the current center. Toured facility to review how the center is currently used. Discuss the possibility of shared use with the Parks Department. The center is adjacent to a city park. The center would include an elderly social area, before and after school care, k-3 daycare, evening activities for community, General Education Development (GED), computer room and HIV counseling.
