

Ritz-Carlton

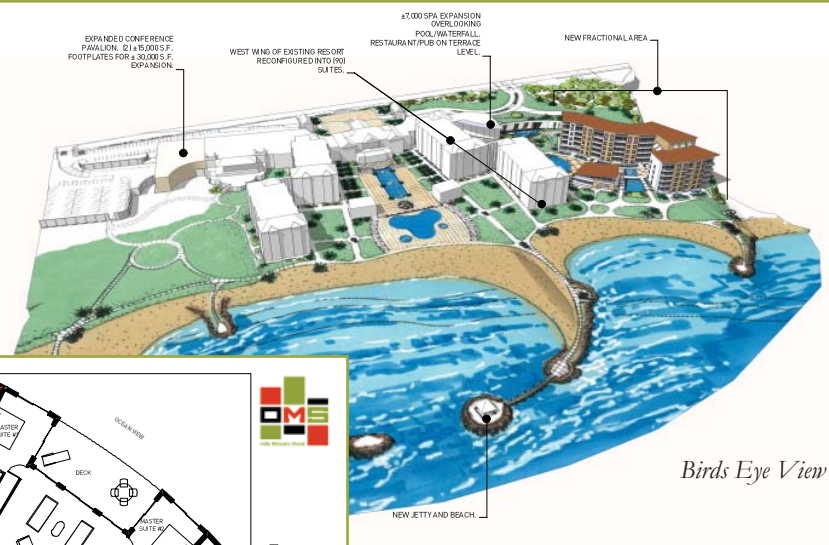

- International Location
- Owner: Doc Hospitality
- Project Description: The project parameters are to convert one wing of the existing hotel into 95 condominium units; renovate with updated furniture and finishes the entry hall, spa and convention center; and renovate with new furniture and finishes the existing guest rooms. New restaurants and bars will also be provided in the design, as well as a 20,000 s.f. casino. The area between the existing hotel room wings will be completely renovated with new gardens, pool, and rock sculpture. This area will have design features and architecture sympathetic to the existing formal architecture of the hotel. New architecture will include a 150,000 s.f. structure housing approximately 40 fractional units for sale. Currently in Schematic Design.
