

Blackford High School
Hartford City, IN

Renovations to Blackford High School included: interior finishes and furnishing were updated in the Cafeteria. New booth seating and a graphic wall mural were added. The Media Center was extensively re-designed and updated to allow for better circulation, technology integration, and more shelving space. New Science Lab layout was configured in the existing second floor space to create an updated layout and room for a shared science prep area. Renovations to the girls locker room were also completed.
