

**Optometry Clinic**  
**Indiana University**  
 Bloomington, IN

The Optometry Clinic is both a revenue generating asset to IU and an invaluable means of giving School of Optometry students hands-on experience in their chosen career. As a result, bringing the circa 1968 facility up to cutting-edge standards was critical. Phased to accommodate ongoing use of the facility, the renovation included the east and west exam wings, eyeglass and contact lens dispensaries, and lobby. Construction took place over two summers when fewer students were using the facility.
