OMS designed a 15,000 square foot EMS facility to house two Medstar helicopters, two ambulances and support facilities. The hanger now serves as the emergency command center in the event of severe storms. The facility is designed to withstand 180 mph winds and includes emergency generators to maintain the entire facility for extended periods. The building also contains crew quarters, training rooms, conference area, kitchen and dispatch room.

*Lee County EMS Hanger*

Construction  
 15,000 sq. ft.

Construction Cost  
 \$3,248,000

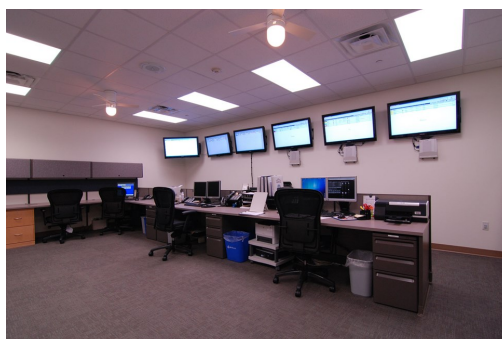

Completion Date  
 August 2008
